

Kansas, August 10, 1925.

Mr. Robert Yellowtail,
Hodge Grass, Montana.

Dear Sir:

The enclosed papers which I am returning to you were turned over to me by Chaplain Allen.

Kindly note Rule 7, on verso side Application Blank - as follows:
"A case once referred for reports will not be again referred without a written request from the United States Attorney or the trial Judge;" so please state this fact to Senator E. A. Wheeler when you get in touch with him - the rule does not state that you have to have a request from both the U. S. Attorney and trial Judge.

You are making wonderful progress, and it is Ben Long Bar's wish and desire that you take the petition to Washington, D.C., your influence as a representative of the Crow Indians, and your knowledge and understanding of the facts in the case will have greater weight with the President than any one else, and I am sure that you can very easily secure an audience with the President through Senator Curtis in Washington, D. C., as he is very courteous and accommodating in his official capacity. But whatever you do in the premises do not mail the papers, and if anything should happen to prevent your going to Washington, D. C., let Ben Long Bar know about it before taking action otherwise.

With kind regards, and wishing for you the best of success I remain

Yours respectfully,

(Miss)

1712 N 3rd Street,
Kansas City, Kansas.
